

Project Update #4

Welcome to the fourth [CENTAUR](#) Project Update! By joining our community, you will stay informed on the latest project progress, news, and events.

During the first week of June, representatives of our team will attend the [XX Congress of the Spanish Remote Sensing Association](#) in Cadiz, Spain, which will take place from 4 to 7 June. We will also be present at the [European Civil Protection Forum](#) in Brussels, Belgium on 4-5 June.

Whats New?

Project Use Cases

We've added a new Use Case section to the website. It provides an overview of the seven selected use cases and the indicators we plan to test.
